

Technical Data Sheet: ZeroPoint Aqua Purification System

ZeroPoint Aqua Purification (ZAP) System

10" Tall x 3" in Diameter - 2.5" Base

Description

The Zeropoint Aqua Purification "ZAP" System is a self-contained, environmentally safe, portable water filtration, purification system. It purifies even the dirtiest water, erases previous vibrational imprints, and recreates the blueprint human frequencies. These frequencies protect the body from toxins and bring it into balance and energetic homeostasis. (See back for "How Frequencies Benefit the Human Body")

Benefits

- It's easy to use - easy to fill - lightweight!
- Removes up to 99.99% of contaminants that can be found in drinking water, such as: environmental toxins, pollutants, pesticides, chlorine and other contaminants.
- Beneficial trace minerals such as calcium, magnesium and potassium are NOT removed
- Water source can be straight from the tap or from rivers, lakes, streams, creeks, or ponds (Perfect for camping, hiking, biking, backpacking, at school and office)
- Better for environment eliminating need for using plastic bottles
- Ultra-cost effective: cost is only pennies per gallon.
- Environmentally safe bio-protein bottle is reusable, can be recycled, will not leach, and is BPA free.
- Logical addition to emergency preparedness plans.
- Filter is replaceable and recyclable - can provide over an average of 500 refills of great-tasting filtered water, depending on how contaminated water is presently
- Leach Proof Bottle, bio-protein #4 low density polyethylene - FDA approved food grade material.
- Filter extensively tested by independent government approved laboratories in the US to EPA/ANSI protocols and NSF Standards 42 and 53.
- Can be stored virtually forever.

Harmful Frequencies

Clears man-made frequencies water picks up in its memory.

Helpful Frequencies

Imprints natural frequencies beneficial to balance the body

Removes...

Aesthetic: Offensive taste, odor, chlorine, silt
Microbiological: Such as Cryptosporidium, Giardia and E-Coli

Chemical: Industrial VOC's (volatile organic compounds), PCB's (polychlorinated biphenyls), THM's (trihalomethanes), agricultural SOC's (synthetic organic compounds), detergents, pesticides, DDT

DISSOLVED SOLIDS

Heavy metals, aluminum, cadmium, copper, lead, and mercury

Blueprint Frequencies

ZeroPoint uses a 'Quantum Field Programming Generator' to infuse specific Blueprint frequencies into each of their products. Listed below are the additional Frequencies that have been infused along with their corresponding systems and organs.

4 - Respiratory	10 - Skeletal	2 - Circulatory	2 - Visual	4 - Lymphatic
10 - Connective	2 - Ingestion	3 - Cartilage	4 - Dental	4 - Brain
3 - Organ	3 - Cellular	7 - Endocrine	4 - Nervous	5 - Muscular
4 - Evacuation	10 - Plant/Earth Heart*			

Total 81 Embedded Frequencies

Technical Data Sheet: ZeroPoint Aqua Purification System

How Frequencies Benefit the Human Body

It has been discovered that the cells in the body vibrate at various frequencies depending on their state of health. ZeroPoint has identified specific frequencies that match the optimum state of health for each of the body's organs and systems. These are called Blueprint Frequencies.

When a person drinks from the ZeroPoint Aqua Purification System, their body begins to 'resonate with the frequencies' that are imprinted in the water. This is similar to a tuning fork that will pick up the frequency (sound) of another tuning fork in its vicinity. When they are close to one another, they will both begin to 'resonate at the same frequency'.

When the organs and systems of the body are attuned with the frequencies that are in the water, the body returns to a balanced state. The body is able to protect and heal itself when it is in balance.

Directions for First Time Use and Maintenance

For best results, you must flush the ZAP System filter with water before first time use. Simply fill the system with water, make sure the spicket is open all the way, and squeeze the bottom half of the black wrap for best water flow. Repeat 3 times. For general maintenance, to keep water tasting fresh, we recommend rinsing the bottle with 10 parts water to 1 part hydrogen peroxide, once a month. To clean the filter, rinse several times.

Testimonials

"A day or so after using the ZAP system for all my water needs I noticed that my urine was coming out a bright yellow color with a very strong metallic smell. What I realized and concluded was that the water was detoxifying the heavy metals from my body. When I mentioned this to my friend Lisa she was amazed in that she was having the same experience and had not put 2 and 2 together. While I have done many natural detoxes in the past I have never seen these results and they were so easily and gently achieved." - Lorraine E., FL

"For years I have had very dry skin and eczema. I have consistently used dermal lubricants of all sorts to maintain a measure of hydration. My husband and I began drinking water exclusively from the ZAP system. Over the next several weeks, my skin became notably softer, less cracked and more supple. The sun damage on my husband's face has lightened in appearance. We are enjoying the effects of well-hydrated skin." - Kimberly A., NV

"I have been using the ZAP system for about two months now and I have lost ten pounds. I have not done anything different with my eating habits. I drink two bottles a day filled with alkaline water, which is all I drink. I have been drinking two liters a day for a couple years now, so I know it's because of the bottle. I have also had a lot more energy since using the ZAP system. Thank you so much. I will be back to let you know when I have lost another ten pounds." - Irma C., ME
